HARD BLOW TO RACING.

Saturday's Affair the Most Lamentable Since the Early Days of Guttenburg.

NO CHANCE FOR INVESTIGATION.

Unless the Morris Stable Should Demand It, the Jockey Club Will Probably Not Take the Matter Up.

By Francis Trevelyan. The situation in regard to the running of The Friar in the Realization, as compared with his previous races in the Sprindrif and Tidal, is left in a more complicate condition than is generally imagined. To most it would seem easy that, now the June meeting have failed to take any action whatsoever, the stewards of the unlikely, as it would be contrary to all precedent and a direct saub to the gentle men who officiated at Sheepshead Bay. All initiative in such affairs is supposed to Come from the stewards of the meeting Lange. at which they take place, and the power of such officials ceases simultaneously with the hoisting of the numbers after the last race of the meeting.

A racing official of prominence, who naturally will not have his name quoted, said yesterday: "No question as to the running of The Friar at Sheepshead was raised by the stewards of the meeting, and the meeting having ceased none can be raised now. Majority of Cycle Track Owners Satisfied with the L. A. W.'s Conduct.

"NO FIGHT," SAYS POTTER.

Other League Officials Sure That the Grumblers Wont Declare Open Warfare.

By A. G Eatchelder. Well-posted followers of the cycle racing ame are not inclined to believe that the National Cycle Track Association has any real intention of carrying its differences with the L. A. W. to an open warfare with that body, the culmination of which would be an attempt to assume control of the sport in this country. The majority of the track owners are satisfied with the present of the League, and the Charles River track, Boston; the new board track at Vallsburg, N. J., and the Buffalo track are quarters in Boston, is now in the the only ones which have come into a violent clash with the Racing Board.

attempt of the Charles River track to run ager, under an athletic sanction-which permits interfered greatly with the regularly sched-uled Spring meet of the Massachusetts Division, L. A. W., and the Associated Cycling Clubs of Boston, held the same day at Waltham, a suburb of Boston. Other matters in which League politics play a part have made the situation in Boston more complicated than a Chinese puzzle, and each side of the contention holds that it is in the right. Time alone will clarify the cycle atmosphere in the City of Culture, and it undoubtedly will result in the survival of the fittest. Just now an outsider can hardly comprehend the many wheels within wheels that are involved.

In Buffalo, the Press Cycling Club secured a sanction for July 5—as had been the case for several years—but was unable to make terms with the owners of the Buffalo Athietic Field for the use of the cement track, the rental being increased to a larger figure than had been asked before.
